

Professional Strength!

MOTOR PRO

AUTOMOTIVE CLEANER AND DEGREASER Concentrate

Added Corrosion
Inhibitor!

DESCRIPTION:

Motor Pro parts cleaner and degreaser has been specially formulated for automotive applications for professional technician use. This industrial strength cleaner is concentrated and is based on a revolutionary colloidal technology that penetrates and lifts grease, oil, dirt on all hard surfaces without harming the surface finish. It is excellent for those hard to clean parts, machines and tools including shop floors. Easily cuts through grease, brake dust, rubber oxide, road tar and grit. **Motor Pro** cleaner is super concentrated and environmentally friendly and requires no ventilation. Safe for use on all automotive equipments. Does not contain petroleum based solvents.

DIRECTIONS:

Apply **Motor Pro** Cleaner and Degreaser on the area to be cleaned, wait a few seconds until the cleaner penetrates the surfaces, then rub gently with a soft cloth or brush on the area to be cleaned. Repeat, if necessary. For added cleaning power use hot water to dilute the concentrate. For ideal dilution ratios see below for details. Rinse with water when completed.

APPLICATION & DILUTION RATIOS:

Machine and Metal Parts	10 to 1	Light Degreasing	5 to 1
High Pressure Cleaning	50 to 1	Equipment and Engine Cleaning	10 to 1

Non-Toxic • Biodegradable
Non-Abrasive • Non-Flammable
